

EPCE Snapshot for Members

Where to use: Company newsletters, Company intranet, HR/Education/Tuition Reimbursement benefits, etc. Need customized messaging? Contact lheller@cael.org

Industry-Approved Online Education and Training Available through [YOUR COMPANY] and EPCE Partnership

EPCE is a national collaboration of energy industry employers, organizations, associations, and higher education partners that work collectively to meet the evolving needs of the energy workforce through relevant online education.

EPCE's online programs are developed by industry, for industry. This means that what you learn is current and applicable to your career and where you want to go.

EPCE's Fully-Accredited Education Offerings:

From individual courses to full certificate and degree programs at all levels, EPCE only partners with fully accredited schools. **Because your company is an EPCE member, you receive discounted tuition which means your tuition assistance dollars go further.**

Whether you're a new hire or a seasoned employee, EPCE's course offerings provide you with knowledge and skills to help you hone your expertise and advance your career. Areas of study include:

- Electric Power
- Nuclear Power
- Engineering
- Instrumentation & Control
- Water & Wastewater Technology
- Cybersecurity
- Business & Technology
- MBA
- And more!

Why Choose EPCE?

EPCE-sponsored online courses are:

- Fully accredited colleges and universities
- Tuition discount for EPCE Member employees
- Flexible to fit your schedule
- Led by industry qualified instructors

- Completely transferrable
- Potential to earn college credit for prior knowledge
- Directly applicable on the job
